RL Projects

Academic Year 2019/2020

Assigned projects will fall into **3 categories**, with an associated maximum score (MS) and delivery material (DM):

- **Survey** - the project consists of doing literature research, reading papers, summarizing and writing a survey paper about the assigned topic *(MS: 26; DM: 12-15 pg paper)*
- **Experimentation** - the project consists in taking existing implementations of an existing algorithm and experimenting with it in the assigned domain *(MS: 30; DM: code + 6 pg report with plots)*
- **Implementation** - the project consists in implementing a paper in the assigned coding framework and experimenting in the assigned domain *(MS: 34; DM: code + 4 pg report with plots)*

The project will be assigned inidividually after compiling a form on the chosen category by **November 8th** (after that, it will not be possible to enroll in projects, and the written exam will have to be completed). Each student will receive the assignment after few days.

There will be 3 deadlines for delivering the projects:

- **December 16th - 23:59pm**
- **January 13th - 23:59pm**
- **February 3rd - 23:59pm**

The delivery of the project will be done over classroom, discussions will happen the day immediately after the deadline (more details will be provided).
